

國立政治大學商學院學友制度心得報告

Buddy Program Reflection

學號	中文姓名	參加學友制學期	外籍學友英文全名
111305103	陳冠維	112-1	Jerome Picco

1. 學友簡介 (含第一次聯繫及 email 截圖) :

Jerome is the buddy from Cologne, Germany. He studied in EBS, a relatively small campus with focus on business discipline. He's currently 24. He's experience life in both Europe and US. One of his aims for exchanging in NCCU is to experience Asia culture, which is exotic to him. Except travelling around Taiwan, he has also travelled to Japan.

2. 學友最喜歡臺灣的那一點(可自由發揮字數不限)

He really appreciates the convenience of living in Taiwan. Including well-organized public transportation 24-hr convenience store service hour. Also, he feels welcomed by the overall society as a foreigner. All in all, he really likes the exchange life in Taiwan.

3. 接待心得(至少 300 字以上)

Since I'm relatively busy this semester, I didn't get a chance to spend much time with my buddy. Nonetheless, we still managed to have diner for 2 times. Except some daily conversation, what's most valuable for me is how life is in their home country. I also have a chance to take a glimpse at what college life generally looks like in Germany. One thing that impress me the most is the drinking culture in Germany. It's a must to drink in restaurant and they drink almost every day, which is really different from that in Taiwan. Here in Taiwan, we usually drink until wasted on Friday night, but in Germany, they drink on daily basis on a moderate level. In addition to drinking culture, I also feel that life in Germany is generally diverse and balanced. Different life value is embraced by people so that people are less restricted

by the social regulation. Also, the work-life balance concept prevails in the society, which I think is essential for sustainable growth for either individual or society.

I am really happy and grateful to have this opportunity to attend the buddy program. Besides making new friends from other countries and improving my English fluency, I really learned a lot about Taiwan culture from a foreign perspective, which has made me reflect on my old beliefs and generate new thoughts. I really appreciate the establish of the program, and I really hope that I can take part in the Buddy Program AGAIN!
