### 1. 學友簡介（含第一次聯繫及 email 截圖）：

Louis is the buddy from ESCP, France. He studied in business and is interested in biking.

### 2. 學友最喜歡臺灣的那一點(可自由發揮字數不限)

He really appreciates the convenience of living in Taiwan. Including well-organized public transportation 24-hr convenience store service hour. Also, he feels welcomed by the overall society as a foreigner. All in all, he really likes the exchange life in Taiwan.

### 3. 接待心得(至少 300 字以上)

Since I'm relatively busy this semester, I didn't get a chance to spend much time with my buddy. Nonetheless, we still managed to have diner together. Both Matthias and me like cycling. We tried to go out together at some points. Unfortunately, the weather wasn't in favor of that...

I am really happy and grateful to have this opportunity to attend the buddy program. Having attended the programs for more than four times, I am far more confident to make friends with Westerners. I found it quite useful to open a conversation by asking question that require them to think and express. For example, one can ask foreigners about the education system, labor policy, democracy questions, etc. Later on, you will be having a long conversation either by sharing the perspective as a Taiwanese or ask a follow question based on their answer.
