

Get more close to German!

I am lucky to stay in Germany in 2010 that I can meet every four year world cup. It is a quiet special experience for Taiwanese, as football is not so popular in Taiwan. I went to the Arena to join the public viewing, see how crazy German became after winning a Game. Be careful, if you have chance to see that in the next four year, you need to get Arena at least one hour earlier than the game start or you maybe can see nothing. Because there will be crowded of people and they are taller than us.....

To get more understand to german and take part in their daily life is one of the prupose I take part in the erasmus program. But to be honestly, in semester most of time I still hang around or travel with my taiwanese friends. I didn't make many local friends... If you want to experience Germany as what I want, you can try to apply for a homestay during the vacation.
